

## Two Electric Bills in June

New technology installed at KEM (AMR meters) allows us to move our billing to a “current” billing cycle. In the past, the billing was one month behind due to the arrival of the meter readings. Switching to current billing in June will result in two bills, as follows:

<b><u>Billing Period</u></b>	<b><u>Bills Dated</u></b>	<b><u>Date Due</u></b>
April Usage	June 1, 2008	June 13, 2008
May Usage	June 10, 2008	June 27, 2008
June Usage	July 8, 2008	July 18, 2008

If your June 1<sup>st</sup> bill is not paid by June 3<sup>rd</sup>, it will show up as a balance forward on the June 10<sup>th</sup> bill. Payment arrangements can be made. No late penalties will be assessed until August 1, 2008.

The following schedule will be used for any accounts on the ACH (automatic payment plan).

<b><u>Billing Period</u></b>	<b><u>Bills Dated</u></b>	<b><u>Date Withdrawn From Bank</u></b>
April Usage	June 1, 2008	June 13, 2008
May Usage	June 10, 2008	June 27, 2008
June Usage	July 8, 2008	July 18, 2008
